Spacetrain

Camouflage

(Ladies and Gentlemen, we would not liketo welcome you on board our Spacetrain on its non-stop flight to the end of this album.
Now that you're here, please don't fasten your seatbelts and refrain from listening to anything else other than the music. In case of an emergency just light a cigar and relax in a comfortable position. Have a pleasent trip and thank you for flying Mendoza Airways!)
Keep on running -
we keep on running
Now you heard our news, and
we keep on running -
we keep on running
someone blew the fuse, but
we keep on running -
we keep on running
We're riding on,
inside our spacetrain
we will never reach the end
We know the way
we're not insane at all
Don't be afraid, my friends
Keep on running -
we keep on running
We made someone's heaven come,
keep on running -
we keep on running
chewing surrealistic gum
keep on running -
we keep on running
