

Can't Stand the Rain

Lowell George

The storms of life are gonna blow through baby
You know we've all seen a cloud or two
But I meant it when I promised I would have your back
Through sky black or blue

Do you remember how we swore forever
Till the sweet or the bitter end
Well this is what they mean when they say
You've got the real thing in a friend

Chorus

Arms open wide
I'll be your umbrella
When you just can't stand the rain
There by your side
I wanna be your shelter
When you just can't stand
When you just can't stand the rain

I don't know where the road you're on is gonna end up
Or what this crazy world ?ll put you through
But don?t you worry bout me baby
You just go on do what you gotta do
I?ll still be here for you? with

Repeat Chorus

When you can?t take it even one more day
No I?m never too far away
Even when you feel like you?re out there on your own
No you?re not alone

Oh no? with

Repeat Chorus

Oh yeah

When you just can?t stand the rain
When you just can?t stand the rain
