Crying Out

Gaeleri

Don't use a weakness
Don't change the subject
Don't ask the questions if you fear the answer
You look distorted, lets make you clearer
Lets flip the switch and use the smoke and mirrors
Re-invent yourself today
Re-invent your world today
[Chorus:]Crying out for the last time
Clear a space for the warning signs
Crying out for the last time
And there's no turning back now that you've opened up to your mind
What guides your vision?
What holds the balance?
Don't think that I can't see you shake and tremble
Well I know your nervous this world is scary

You have to let go all the madness you carry
Re-invent yourself today
Re-invent your world today
[Chorus]There is no turning back now
Everything you've ever wanted
Everything in this moment
There is no turning back now
[Chorus]Crying out
Crying for the last time
Crying out
Crying for the last time!
