Future Love

Lady Gaga

Doo-ahh
Hello
It's nice to meet you.
You are very cute.
Robo man.
I cant help my self
I'm in love,
And when I get back from outter space
I'm gonna punch him in his face
If he's the moon
Then I'm eclipsed
I'm so lunar yeah when I get to him
I'll run him over with my rocket ship.
My eyeliner runs in constellations
For you dear
If only I could reboot my mechanical heart
I'd think clear
Baby I'm feeling so out of this world,
Baby with you I'm a different girl
Ohhh, ohhh, ohh you're my future love.
Baby could we make a home in the stars
Baby somewhere in a galaxy far
Ohh, ohhh, ohh you're my future love
Ohohohoh, I want your fu-fu-fu-fu future love
I want your fu-fu-fu-fu future love,
Would you be my fu-fu-fu-fu future love
I want your fu-fu-fu-fu future love
Would you be my fu-fu-fu future man
I wanna fu- fuck you as hard as I can
Would you put me in your fu- future plans
I want a fu-fu-fu future man.
I've been working and engineering, uh
All our chemistries and our situations
Working out our sex equations,

And I know I'm no Nostradamus, yeah
Cause my hair is blond but my heart's brunette
If I'm not on him then at least I'm honest
My mascara runs in constellations

For you dear, my dear
If only I could outer space my brain
For a minute
I'd think clear (I love you so much)
Baby I'm feeling so out of this world,
Baby with your I'm a different girl
Ohhh, ohhh, ohhh you're my future love.
Baby could we make a home in the stars
Baby somewhere in a galaxy far
Ohh, ohhh, ohh you're my future love
Ohohohoh, I want your fu-fu-fu-fu future love
I want your fu-fu-fu-fu future love,
Would you be my fu-fu-fu-fu future love
I want your fu-fu-fu-fu future love
Would you be my fu-fu-fu future man
I wanna fu- fuck you as hard as I can
Would you put me in your fu- future plans
I want a fu-fu-fu future man.
If you could only take me in
To a place we've never been
He is so unreal yeah!
He's a mannequin
A synthetic, plastic, robo man
And I'm relying on, on a shooting star
To get to you my future love ah ah
He's my rubber hunk, my mechanic guy
And I'm stuck in his metal robo ey-ey-ey-eyes!
Robo ey-ey-ey-eyes!
My future guy
Parumpumpumpumpumpumpum.
