

Missing You (Produced by Stargate) (2007)

Trey Songz

I can't stop missing you, wish I was still with you
I can't stop missing you NO, NO, NO, NO
I can't stop missing you, wish I was still with you
I can't stop missing you, NO, NO, NO, NOI miss the way you kiss
I miss the way wear them heels and make it switch
Miss the way ya hair blows in the wind
And I miss you staying here till the morning
Miss the way you put on your makeup
Miss the way you love me too much
It's everything about you baby
Wanna know where you been lately
Do you go out, do you still live at your old house
Do you got somebody new in your life
Cuz I cant get you outta my mind
And I wanna erase but I can't stop seeing your face
And every girl I try to replace
You with why cant I get over it
Simply cuz I cant
I can't stop missing you, (Cant Stop) wish I was still
with you (With you)
I can't stop missing you NO NO NO NOI can't stop missing you, (Cant stop) wish I was still
with you (with you)
