

# I Know I Could

## Drugstore

I feel  
stained and I'm in pieces  
In my mouth the  
sad taste of the past I had  
A thousand  
wasted kisses  
But  
another glass  
And a  
cigarette  
Just  
anything  
To help  
forget the things that  
Every day I  
still find missing  
Let the whole  
world crash down on me  
And let the  
curtains rise  
I could do  
so much harm  
I could do  
you no good  
I'll leave a  
stain in your heart  
I  
would  
Yeah, I'm  
gonna mess up your life  
And make you  
forever blue  
'Cos I  
could hurt you  
I know  
I could  
I know  
I could  
Misty haze

and the final rest  
They say the  
first shall be the last  
But not  
for me  
'Cos I  
don't believe it  
So  
another glass  
And a  
cigarette  
Just  
any man  
To help  
forget the things that  
Every day I  
still find missing  
Let the whole  
world crash down on me  
And let  
the curtain rise  
I could do  
so much harm  
I could do  
you no good  
I'll leave a  
stain in your heart  
I  
would  
Yeah, I'm  
gonna mess up your life  
And make you  
forever blue  
'Cos I  
could hurt you  
I know  
I could  
I know  
I could
