

Noche Sin Fin

Juliette Lewis

My endless night was so black
So damn blind I couldnt fight
 Oh no god I woke up
Oh lord Ill never take it back no
 Every night I see
 Every night I see all the ghosts
 Staring at me

You can never get it back cause you never let the devil know youre under attack no
And you wonder why you failed everyone why your youth is gone All I wasted
 All I took all I took I could take I, I ran away but I couldnt escape no
 And its all the way gone
 All the way gone

 Every night Im singing the same, same old song oh
How you took me down how I lost it all loved by everyone and no one at all
 You suffer the cost and serve them well you serve the loss and this is my hell

Oh no and they hold you down and they hold your head all the way down down down down down
 Keep it up keep it up you never get over it
 Youll love and be killed by your love you will be
 Oh you set me free I was turned away
 And youI heard you say in a soft voice youll be ok
 Dont cry

 You sleep once and then you never die
Starving on the stage, splintered and poor oh my love, oh your love I adore, I adore
 Oh your love I adore adore
 I took it down I took myself out
 I took it down. Never again no

 You never die

 You will never die

 I, I, I, I, I, I,

 I will never die

 You will never die

 Well never die

 Oh, oh, oh lord you took me one time never again no

 Its all, all the way down

 All the way down

How you took me, how you loved me, how you set it free

 All the way down, all the way down

 Everything you give to me

 Oh the black night

Oh the black night
I fight my way free
And we go on and on, we keep going on on and on and on
