

# New Scene (feat. Ofelia)

## Felix Cartal

Dont believe...

Everything's not what it seems

I can't believe...

There were more steps to this dream.All I wanted was something more

Than what everyone was reaching for

I can't believe...

It was all a dream.I'll be the best escape of the in between

I'll be the...

First step to a brand new scene

All I wanted was more... x3Draw the line...

Count to three and close my eyes

And now's the time...

Take a chance, make up my mind.All I wanted was something more

Than what everyone was looking for

I can't believe...

It was all a dream.I'll be the best escape of the in between

I'll be the...

First step to a brand new scene

All I wanted was more... x3
