

# Let's Do This Here

## Driftless Pony Club

And those angels in the snow  
Could come alive and let you know  
Just what they thought that you should know,  
You should know,  
You should know.

And yeah ghosts can walk through walls,  
Dirty done, four Craigs and all.  
Hindsight perfect, not like you.  
It's alright, they're not like you.

And oddly enough  
It's all off the cuff  
In the alleycat mud  
I've done more than you've done

You're not like the dead  
Who've got nothing to do  
But you lay in the snow  
And you do nothing too

Get plastered, pass out on your stairway  
Suck the sunshine, make it to the highway  
The shortcut home in the alley line  
They mugged me, beat me and kicked me to the roadside

I could use some sediment to turn me into imprints  
Then we'd be the same despite the distance  
Take no time to fossilize  
An angel in the snow, I'm addicted to the halo

Earthquakes will burn down the buildings  
Dirty apartments, laptops and ceilings  
Music played from quiet boxes  
I will try to feel my size in this

And those angels in the snow  
Could come alive and let you know  
Just what they thought that you should know  
You should know

You should know

And yeah ghosts can walk through walls

Hindsight perfect not like you

It's alright, they're not like you
