

# Wait for Me

## Dive

This picture's worth a thousand words  
But I need you to say them first  
Then I'm gone, so ho hold on  
You always take this somewhere new  
And I need that like I need you, so hold on  
Hold onAnd I know you tried  
You're the only thing that's right  
Just you by my sideWait for me  
Wait for me  
Don't let me fall  
And just stay for me  
Stay for me  
All through the night  
And just wait for me  
Wait for me  
Don't let me fall  
And just wait for meI'm lost and you're my only clue  
To find out what you always knew, so hold on  
Hold onAnd I know you've tried  
You're the only thing that's right  
Just you by my sideWait for me  
Wait for me  
Don't let me fall  
And just stay for me  
Stay for me  
All through the night  
And just wait for me  
Wait for me  
Don't let me fall  
And just wait for meWe can run away, run away  
We can run way and leave this all behind  
We can take a chance and get away  
We can run  
Wait for me  
Wait for me...Wait for me  
Wait for me  
Don't let me fall  
And just stay for me  
Stay for me

All through the night  
And just wait for me  
    Wait for me  
    Don't let me fall  
    And just wait for  
    Wait for  
    Wait for me
