

Pale Blue Dot

Bliss n Eso

Yo

When I lift off, I blast right through the clouds and up through the atmosphere.

And I hit space, and I look back, and I peer at the massive sphere.

Our home, a beautiful island in the vacuum, as I blaze the way through the solar system.

One voyager alone, six billion K's away and from here,

Earth looks like a pale blue dot in the vast enveloping cosmic dark.

And suddenly the problems of our world fall apart with the conscious spark
that our similarities far outweigh our differences
we see how connected life is.

Like the moment of clarity is what this image is,
nothing puts things in perspective like this.

I embark, new freedoms, the stars and truth lead us.

The positive vibes that charge my nucleus.

Every step, every breath, every life, every death.

Every age every act, empire and collapse.

What we know, our beliefs ideas, every dream it's everything we think in our minds.

The entire history of Mankind in time,
summed up by that dot in the blink of an eye, I fly.[Chorus]

Turn up the music, right about now, cause if it wasn't for the music I don't know what I'd do.

Turn up the music, right about now, cause if it wasn't for the music I don't know what I'd do.

Turn up the music, pump up the vibe yo, this is music I've been waiting all my life to hear, and I didn't know it.

Pump up the vibe yo. Turn, turn, turn up the music.

What do you see when you close your eyes?

(All of the positive messages)

This is music I've been waiting all my life to hear, and I didn't know it. Welcome, to the next dimension.

I myself wonder, how does music place itself in your brain?

Why does it make you dance?

Why does it make you think?

Our message is much deeper than most.

It seems that, this is our only escape, and music is universal love. Yeah, the arrival was survival.

Positivity was power.

We cracked the concrete, to deliver you those flowers.

Now that day has wings (yeah)

and can run on air.

With a hope, if we spoke, there was someone there. Now I owe it to you to give back what you gave us, cause
the fact is you practically saved us,

from being trapped in a cage.

To prove my mum right, Max'll be famous.

But the cash couldn't save us, we're just thankful our passion can make bucks.

I got my fam right behind me.
I can hang glide through lightning.
Motherfucker I told you I tango,
with a gang, off the chain like Django.
In-flight, at a height you could touch an eclipse, cloud nine's got nothing on this.
And what a view of the atlas, out here playing pool with the planets.
That's right, it's all love round here, cause we don't give a fuck about fear. Turn up the music, right about now,
cause if it wasn't for the music I don't know what I'd do.
Turn up the music, right about now, cause if it wasn't for the music I don't know what I'd do.
Turn up the music, right about now, this is music I've been waiting all my life to hear, and I didn't know it.
Turn up the music, right about now, turn up the music, right about now, cause if it wasn't for the music I don't
know what I'd do.
What do you see when you close your eyes? (All, all, all of the positive messages.)
