

She Stays with Me

Van Hunt

She's hard to impress
I never think about the rest
They gave me what I, gave me what I wanted
And I don't count my chest
But she comes to mind, she comes
So frequently because
She's always dancing
Dancing on the tip of my tongue
She stays with me
My momma said I need to let her grow
So many, many who all said yes
But she said no
She stays with me
Sunk her teeth in deep, my memory fogs
So many, many who gave her best
She's the one I remember the most 'Cause she's the one who got away, away
But flaunts it in my face, my face
It's hard to shake it off
It's hard to change the locks
It's a nasty after taste
She stays with me
My momma said I need to let her grow
So many, many who all said yes
But she said no
She stays with me
Sunk her teeth in deep, my memory fogs
So many, many who gave her best
She's the one I remember the most
