

# Young Saints

Jason Lytle

Young saints passed out and gone again  
Outcold on indie and ambient  
You are goneCrapped out captain america  
It's sad that animals laugh at us  
You are goneThinking is blinking is making a sound  
You're trying to found you but you won't be found  
You are goneYour ex girlfriends lost pets and dead friends  
Know they won't be hanging out with you again  
You are goneYou are gone  
Young saints, you are gone  
Young saintsYoung saints wasted and gone again  
Outcold on flee market medicine  
You are goneYour ex girlfriends lost pets and dead friends  
Know they won't be hanging out with you again  
You are goneYou are gone  
Young saints, you are gone  
Young saintsYou are gone  
Young saints, you are gone  
Young saints
