

The Lonely Side of Love

Patty Loveless

Can't make these heartaches go away
He's always on my mind
The memories of the love we had
Don't fade away with time
What is this crazy road I'm on
I don't understand What makes two people fall in love
What good's a promise when the love is gone
Where do you go when you find yourself
On the lonely side of love? The rain is fallin' to the ground
The neon rainbows glow
I see us standin' far away
Where peaceful waters flow
It's the only dream that I have left
That I can hold on to Now am I right or am I wrong?
Holdin' on to what is gone
And what's left to believe in
On the lonely side of love? Can't make these heartaches go away
He's always on my mind
The memories of the love we had
Don't fade away with time
What is this crazy road that I'm on
I don't understand? What makes two people fall in love
What goods a promise when the love is gone
Where do you go when you find yourself
On the lonely side of love? Now am I right or am I wrong?
Holdin' on to what is gone
And what's left to believe in
On the lonely side of love?
