

# Sweet Memories

Shirley Carvalho

There's a town by a river  
And a dirt road that runs through the town  
Winding around

As a child I would daydream  
Where that road might take me  
When my time for leavin' came down  
And each night I'd awaken  
From a dream I was takin'  
That 'ol dirt road out of this town

Sweet memories keep haunting me  
Callin' me like an old friend  
And I pray that someday  
I'll ride this highway  
'Till it turns to that dirt road again

Now I live in the city  
Where man made mountains of steel  
To block out the sky  
And that river of traffic  
That runs by my window  
Never seems to run dry

And tonight before sleeping I pray God is keeping  
That old place that I left behind  
Sweet memories keep haunting me  
Callin' me like an old friend  
And I pray that someday I'll ride this highway  
'Till it turns to that dirt road again

In the city tonight  
When I turn out the lights  
I'll be ridin' that 'ol dirt road again
