

# Mercury and Solace

BT

Vibes  
Only you are my happiness  
My memories  
Lovely voices Nightfall, I'll meet you  
Seeds of desire absolve  
There's no going back  
Losing control As the morning creeps up  
And looking for the shade  
In your embrace  
My grieving says Reach out for me, reach out  
Reach out for me, reach out I know you're, you're there Reach out for me, reach out  
Reach out for me, reach out I may go with you  
Lovely voices  
Lovely voices Reach out for me, reach out  
Reach out for me, reach out Reach out for me, reach out  
Reach out for me, reach out Reach out for me, reach out I savor every moment  
I'll savor every moment  
You're precious  
You're precious to me Reach out  
Reach out
