

Broken over You

Vertical Horizon

Closer than I've ever been
With you.
Trying to get settled in
After all we went through and
Just breathing for a moment
To see what we had
Before it got stolen
Can we get back this love?
Just like we had this love
Just like we had enough
Just like we had Part of me knows that
Part of you is broken
'Cause I am broken too
I'm broken over you and
Most of me is certain
That most of you is hurting
'Cause I am hurting too
I'm broken over you Try to make sense of it
Someday
The truth is so hesitant
But there's more than just blame now
Moving in silence
Through every regret
Still vivid inside us
How can we get this love?
Just like we had this love
Just like we had enough
Just like we had Part of me knows that
Part of you is broken
'Cause I am broken too
I'm broken over you and
Most of me is certain
That most of you is hurting
'Cause I am hurting too
I'm broken over you Broken over you
How do I get from
Broken to over you?
Broken over you
How do I get from

Broken to over you?
Over you Oh, part of me knows that
Part of you is broken
'Cause I am broken too
I'm broken over you
Most of me is certain
That most of you is hurting
'Cause I am hurting too
I'm broken over you
