

# Telomere

## Mystery Jets

Malevolence and providence  
Are opalescent in the telomere  
The forest floor and the petrichor  
The long and short of the telomere  
Of the telomere In your blood  
The one thing they can't take away  
The one thing they can't take away from you  
Away from you or replace Where the cells reside  
Splinter and divide  
They will never die  
In the telomere In the telomere that lives inside us  
And the people walking down below  
Crawling home alone like spiders  
As the cancer slowly starts to grow In your blood  
The one thing they can't take away  
The one thing they can't take away from you  
Away but don't be afraid 'Cuz living in our blood  
Is the one thing they can't away  
They one thing they'll never take away from you  
Away so don't be afraid (It's in your blood)  
Our telomere  
(It's in your blood)  
Our telomere  
(It's in our blood)  
Our telomere
