Keep On Livin'

Le Tigre

You hide inside, so not okay
(Keep on, keep on livin')
What if you remember more today?
(Keep on, keep on livin')
The phone keeps ringin' but there's too much to say
(Keep on, keep on livin')
You tell them to go when you wish they would stay
(Keep on, keep on livin')
You gotta keep on
(Keep on livin')
You gotta keep on
(Keep on livin')
You gotta keep on
(Keep on livin')
You gotta keep on
(Keep on livin')
Disproportionate reactions just won't fade
(Keep on, keep on livin')
Every dude you see puts you in a rage
(Keep on, keep on livin')
Stupid shit just makes you cry
(Keep on, keep on livin')
Your friends are worried you won't tell them why
(Keep on, keep on livin')
You gotta keep on
(Keep on livin')
You gotta keep on
(Keep on livin')
You gotta keep on
(Keep on livin')
You gotta keep on
(Keep on livin')
Look up to the sky, sky, sky, take back your own tonight
You'll find more than you see, it's time now, now get ready
So you can taste that sweet sweet cake and
Feel the warm water in a lake, you know
What about that nice cool breeze and
Hear the buzzing of the bumble bees

Just live beyond those neighborhood lives and
Go past that yard outside and, push through their greatest fears and
Live past your memories tears 'cause
You don't need to scratch inside now just please
Hold on to your pride and
So don't let them bring you down and
Don't let them fuck you around 'cause
Those are your arms that is your heart and
No, no they can't tear you apart
They can't take it away no
This is your time this is your life and
This is your time this is your life and
This is your time this is your life and
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
This is your time this is your life and
(Keep on)
(Keep on livin')
