Left Right

Anwar Superstar

Can you hear me? I call your name twice
Can you feel me? I treat you so nice
When you're not here, I feel it's getting cold
Come around me and you will see my world
Move with me to the left and then move it, move it
Move with me to the right
Move with me to the left and then move it, move it
Move with me to the right
Just dance, just dance, just dance, just dance
So sexy
So sexy
Move with me to the left and then move it, move it
Move with me to the right
Move with me to the left and then move it, move it
Move with me to the right
Just dance, just dance, just dance, just dance
So sexy
Move with me to the left and then move it, move it
Move with me to the right
Move with me to the left and then move it, move it
Move with me to the right
Just dance, just dance, just dance, just dance
Just dance, just dance, just dance, just dance
