

# Left Right

## Anwar Superstar

Can you hear me? I call your name twice  
Can you feel me? I treat you so nice  
When you're not here, I feel it's getting cold  
Come around me and you will see my world  
Move with me to the left and then move it, move it  
Move with me to the right  
Move with me to the left and then move it, move it  
Move with me to the right  
Just dance, just dance, just dance, just dance  
So sexy  
So sexy  
Move with me to the left and then move it, move it  
Move with me to the right  
Move with me to the left and then move it, move it  
Move with me to the right  
Just dance, just dance, just dance, just dance  
So sexy  
Move with me to the left and then move it, move it  
Move with me to the right  
Move with me to the left and then move it, move it  
Move with me to the right  
Just dance, just dance, just dance, just dance  
Just dance, just dance, just dance, just dance
