

Still In Love

[Xikidi](#)

STILL IN LOVE

what i'm gonna do to make you happy
what i'm gonna do to make you mine
i can't get no satisfaction from your love
tears in my eyes keep on burning
but do you know yeah i'm still in love this aint no movie, i guess you need a change
this aint no movie, still want you to stay
you have everything and nothing to lose
never gonna give up, show me that love
do you know i'm still in love chorus
you're my first, you're love everything i told you lately that i love you girl
