Out Right Now

Material Issue

Well, if the birds in your sky discontinue to fly
Tell me why, tell a lie, can I have your love?
And if the leaves in your trees if they sway with the breeze
Tell me, dear, tell me, please, have you had enough?
And she saidWell, I'm out right now
But I might be back in the morning
Yeah, I'm out right now
Leave your name and number on the recordingWell, if the car that you drive, if it suddenly collides
Can I give you a ride, can I take you home?
And if the words that I say make you run, run away
Tell me now yeah today, have you heard 'em all?
And she saysWell, I'm out right now
But I might be back in the morning
Yes, I'm out right now
Leave your name and number on the recordingWell I've been waiting so long, I've been feeling so strong
I think about you on a warm afternoon
You're only breaking my heart but that's the very best part
I hope I see you and I hope it's soonWell, if the things that I say make you run, run away
Tell me now yeah today, have you had enough?
And if the words that you hear, if they dis-disappear
Tell me now tell me clear, have you had it all?
And she saysWell I'm out right now
But I might be back in the morning
Yeah, I'm out right now
Leave your name and number on the recording
