Remember

Ian Grey

Something is missed on here
It back in central time
I wish I could disappear

Between the city light

See your stranger swallows
Everything I was
And when you see my face
Who you like who I become

You kept me grounded
but I'm not around enough
You got me runnin cicrle
Chasing after love

Will you please remember me
Remember me
Remember me
for who I was

Remember me
Remember me
Remember me
for who I was

A longer I'm away
A more I hit the chance
But its the price I pay
To make them knock my name

You kept me grounded
but I'm not around enough
You got me runnin cicrle
Chasing after love

Will you please remember me
Remember me

Remember me
for who I was

Remember me
Remember me
Remember me
for who I was

And I want be there when you fall asleep
And I want be there in your memory
I wont be there when you needed me
I'm gonna miss so much

And I want be there when you fall asleep
And I want be there in your memory
I wont be there when you needed me
I'm gonna miss so much

Will you please remember me
Remember me
Remember me
for who I was

Remember me
Remember me
Remember me
for who I was
