We'll Fall Apart

Swans

I won't remember what you were when you were young
You were no one then and you're nothing now
Do you remember what you denied me then
Do you remember how you deny my body nowI do, I do, I do, oh, I do
When I feel your heart we will come undone
We will fall apart, we will fall apart
We will fall apart, we will fall apartWill you deny me, when I get down on my knees
Oh, you're nothing now, your body's burning down
Do you remember how cruel you used to be
Do you remember what you deny my weakness nowI do, I do, I do, oh I do
When you remember who you are, we will come undone
We will fall apart, we will fall apart
We will fall apart, we will fall apart
