

# Solved

## Unbelievable Truth

There's a problem, I can't solved it  
The only way out is too hard now  
There's another one when this one's gone  
Can't send it along

You can't send it along  
And it's all I've got  
And it's not enough  
And it's time to reason out my mind

What's a problem soon forgotten  
Catching up with me and talking  
Of a hero's so-called perfect life  
Can't send it along

And this time who's alone  
And it's all I've got  
And it's not enough  
And it's time to reason out my mind

Thinking of ways to keep my time from running out  
Thinking of ways to keep my pride from running out  
So many reasons I can't give for running out  
Keep my head down but I still know

You can't send it along  
And it's all I've got  
And it's not enough  
And it's time to reason out my mind

And it's all I've got  
And it's not enough  
And it's time to reason out my mind  
You can't send it along

You can't send it along  
You can't send it along  
You can't send it along  
(If there's a problem I can't solve it)
