

# Geraldine (album version)

## Glasvegas

When your sparkle evades your soul  
I'll be at your side to console  
When your standing on the window ledge  
I'll talk you back from the edge  
I will turn your tide  
Be your Shepard and your guide  
When your lost in the deep and darkest place around  
May my words walk you home safe and sound  
When you say that I'm no good and you feel like walking  
I need to make sure you know that's just the Prescription talking  
When your feet decide to walk you on the wayward side  
Up upon the stairs and down the downward slide  
I will, I will turn your tide  
Do all that I can to heal you inside  
I'll be the angel on your shoulder  
My name is Geraldine, I'm your social worker  
I see you need me  
I know you do
