

# Thunderbird

[Sean Rowe](#)

Carol, what do you know  
I made it to the other side again  
I waited till the road was free  
Living long wasn't that good to me Carol you know me well  
I wasn't gonna love you with all those chains  
It's better than it used to be  
Somehow I get to heaven with a broken wing I tried so hard to hold you one last time  
I'm just a concrete head sinking in a pool of wine Carol, you can have the keys  
I'm never gonna drive that Thunderbird again  
It's wasted, but it was never dead  
You know I love you way past all the things I said I tried so hard to hold you one last time  
I'm just a crazy heart drinking on an empty mind  
Carol what do you see  
in that lonely shadow where I used to stand
