When the Stars Begin to Fall

Tomahawk

One small blind guy
Watches the otherI'm looking for you for it stops at you
What you said is the same thing teacher says
Down on the creek bed in the big water
See me hide the pearls up your dressNight crawler, midnight caller
Should've been me, baby don't look down
It should've been me
Night crawler, tightrope walker
Should've been me, baby don't look down
It should've been meOne small blind guy
Watches the otherOne for sorrow, two for joy
Three for a girl, four for a boy
Five for silver, six for gold
Seven for a secret never to be toldNight crawler, midnight caller
Should've been me, baby don't look down
It should've been me
Night crawler, tightrope walker
Should've been me, baby don't look down
It should've been meOne starNight crawler, midnight caller
Should've been me, baby don't look down
It should've been me
Night crawler, tightrope walker
Should've been me, baby don't look down
It should've been meOne small blind guy
Watches the otherHear that sucking sound? Circus is in town
What's the lips and what you said to me?
I'm the psycho bit, murder, admit it
The wire went around and downDown, and down, down
