Peace In The World

Shanice

From the north to the south
From the east to the west
We're praying all over this beautiful planet
For peace in the world, peace

Check this out, lookin' in my heart
I got to find a way
I wanna do my part
I wanna make that change

There's fighting in the streets
What's it all about
Can we stop the hate
Can we work it out

(Say 'cause)
You and I can make the difference
The love that we're feelin', I truly believe in
(Say 'cause)
You and I can make a change
Love will show us how, love will be our guide

Peace in the world is what we care for
Hand and hand we'll make a change
Peace in the world is what we care for
Heart to heart we'll find a way
Yeah, we're gonna make that change, listen

Kids are starving now
All across the world
Let's lend a helping hand
Save all the boys and girls

People are selling drugs
Gangs are everywhere
Let's come together now
Show them that we care

(Say 'cause)
You and I can make the difference

The love that we're feelin', I truly believe in
(Say 'cause)
You and I can make a change
Love will show us how, love will be our guide

Peace in the world is what we care for
Hand and hand we'll make a change
Peace in the world is what we care for
Heart to heart we'll find a way
Yeah, we're gonna make that change, listen

Peace in the world, so kids'll know
Not to ever make war, love'll show
That it can over power hate
As evil disintegrates 'cause we got to have faith

If you do right, there'll be no wrong
That's why, Shanice is singin' the song
About love and joy every man, woman, boy and girl
To have peace in the world
