# Twice Daily to Prevent Nausea

## Crime In Stereo

Who are you to say
young bodies can't fill full sized graves?
Shine bright through dismay
when I thought everything was ending.....When you passed by,
I passed out.
Forgetting every word that came out.
If I only knew that I could see your face....Who are you to say
young bodies can't fill full sized graves?
Shine bright through dismay
when I thought everything was ending.....
