

Share With You (feat. Lennon & Maisy)

Nashville Cast

I like the way I walk
I like to hear myself talk
I like the sound, of the beat of my own drum.
One is so much better when it's two
I'd rather share with you I like a girl's night out
I like to get lost inside a daydream
I like a game of Solitaire
One can get so boring without two
I'd rather share with you (Interlude) I like being me
I like being free
One is so much better when it's two
I'd rather share with you
I'd rather share with you
I'd rather share with you
