

# Sixteen

## Deas Vail

Just twenty-one and it feels like sixteen  
Just a moment of my life  
I'm lost in a feeling  
It's the season of discovering our best habits  
Searching for a reason to share my secrets

And we're lost and we want to be found  
We'll build it a kiss at a time and it might not fall down

Love is taking what have  
Baby, don't let go now  
Remember that it's hard because it's worthwhile  
Loving isn't always an open doorway  
It's giving up your heart at moments of faith

And we're lost and we want to be found  
We'll build it a kiss at a time and it might not fall down  
Love is in the hands that reach out  
Baby, don't waste this chance 'cause it might not come back  
Come back around

All this growing up  
Lately I feel like I've had enough  
Love is where we turn to get us through  
I will always turn and follow you

Because we're lost and we want to be found  
We'll build it a kiss at a time and it might not fall down  
Love is in the hands that reach out  
Baby, don't waste this chance 'cause it might not come back  
Come back around
