Don't tell anyone

Don't tell anyone

Don't tell anyoneWe share a joke in the

Well fine, know how to make you laugh

No hang ups between us

Not like the other girls and love

You're different, confident

Our secret's safe with me

Red lipstick on my cheek

Your love must last all week, girlI can't tell, can't tell, can't tell anyone

What we've got going on

Don't tell, don't tell, don't tell anyone

What we've got going on

Hold hands, got plans

Don't tell anyone

What we've got going on

Can't tell, can't tell anyoneDon't tell anyone

Don't tell anyone

Don't tell anyoneOur love is what others could never come to understand

But we like clothes, your heart beats slow

And I can hear it with my hand

We love it, if I ever

Ever caught your legs wrapped around me

Tear you from out my arms

And we'd be history, girlCan't tell, can't tell, can't tell anyone

What we've got going on

Don't tell, don't tell, don't tell anyone

What we've got going on

Hold hands, got plans,

Don't tell anyone

What we've got going on

Can't tell, can't tell, don't tell anyoneDon't let them see us holding hands
Our love's one thing they'll never understandDon't let them see us holding hands
Cos our love's one thing they'll never understandCan't tell, can't tell, can't tell anyone

What we've got going on

Don't tell, don't tell, don't tell anyone

What we've got going on

Hold hands, got plans,

Don't tell anyone

What we've got going on
Can't tell, can't tell anyoneDon't tell anyone
Don't tell anyone
Don't tell anyone
Don't tell anyone
