Reggie

My Superhero

don't know what you're saying
don't know what you're doing
hope i didn't ruin this
i'm sitting on my hands and
i'm sitting on my hands and
i should stand on my hands and say
i try to understand and
i tried to understand and
i try to understand what you say
it's just like we said it's gone to your head
it's just like we said
it's just like we said they're going off to bed
it's just like we said
i watched 6 months go by and
i'll watch a year go by and
i'll watch a year go by and see
i try to understand you
i tried to understand and
i'll try to understand what you said
