

Hold Back the Night

Graham Parker & The Rumour

Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby When you left
You took the sun
Right out of my sky
Yes you did
Wonder why
You went away
And never told me why
When the sun go down
The moon is near
I'm scared to death
'Cause your face appear Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby Loneliness
Holding me
When I go to bed yes it is
Like a character
In a book
That I have read
When the sun go down
The moon is near
I'm scared to death
'Cause your face appear Hold it hold it hold it hold it Hold back the night
Turn on the light
Don't wanna dream about you baby
I said hold back the night
Turn on the light
Don't wanna dream about you baby Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light

Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby
