

Things Fall Apart

Hell Is For Heroes

Love red and broken by the cloud
Don't let the shield of make up
Twisted and tangled in this web of tricks
You've spun for me No idle prayers, blind innocent
We don't look back and we don't look down
My favorite drug, my sweetest friend
Bury the hatch and keep walking I blame myself for nothing
Leaving you could lie so well
I never dreamed we'd come
This far to leave it all behind No idle prayers, blind innocent
We don't look back and we don't look down
My favorite drug, my sweetest friend
Bury the hatch and keep walking Don't look backwards, don't look backwards
Don't look backwards, don't look backwards
Don't look backwards, don't look backwards No idle prayers, blind innocent
We don't look back and we don't look down
My favorite drug, my sweetest friend
Bury the hatch and keep walking
