Question My Heart

Kaysha

Girl, you asked me this morning
would I give you anything
Anything in this world is for you
You can ask me anything
Well, don't be afraid
I'm not like your ex-boyfriend
I'm gonna tell you how it is

You are my baby
and this feeling is so real
and with this ring
I'm gonna make you a lady

Chorus:
You don't have to question my heart
I love you (Ilove you)
Baby, can't you see in my eyes
I love you
You don't have to question my heart
I love you
Baby, can't you see in my eyes
I love you

I tried to change my way for you
I'll be a better man
I'd change my past if I could
but let's think about the future
Wanna make you dream again,
make you fly like a bird
Just because of the way you're loving me

You are my baby
and the feeling is so real
and with this ring
I'm gonna make you mine

Chorus x2

So much...
Look me in the eyes, baby girl

I love you

Chorus
