

Keep On Smilin'

New Kids On the Block

Oh baby, yeah, girl
You always make me feel so good inside What about you and me?
We were supposed to play for keeps
Home grown from the streets
The jungle in our reach It aint about bein a hood
When you touch me like you should
Ill rule every day
You let me in your world You see through out these years our love remains
The moon will never let the tide go away Through the pleasure and pain
Through the sunshine and rain
Baby, we keep on smilin through the laughter and tears
And all of the years, baby, we keep on smilin Everybody says the same
Baby, keep smilin, smilin for me
Come on now
Baby, keep smilin, keep on smilin Everybody says the same
Baby, keep smilin, smilin for me
Come on now
Baby, keep smilin, keep on smilin Headin out to the beach
Try to claim a few rays jump in the back seat
Were gonna taste the grape
Red and white they both go were cruisin all the way You see through out these years our love remains
The moon will never let the tide go away Through the pleasure and pain
Through the sunshine and rain
Baby, we keep on smilin through the laughter and tears
And all of the years, baby, we keep on smilin Everybody says the same
Baby, keep smilin, smilin for me
Come on now
Baby, keep smilin, keep on smilin Everybody says the same
Baby, keep smilin, smilin for me
Everybody come on now
Baby, keep smilin, keep on smilin Thats right, pretty girl
And no matter how hard things might get
You can always count on me, yeah You see through out these years our love remains
The moon will never let the tide go away Through the pleasure and pain
Through the sunshine and rain
Baby, we keep on smilin through the laughter and tears
And all of the years, baby, we keep on smilin Everybody says the same
Baby, keep smilin, smilin for me
Baby, keep smilin, keep on smilin Everybody says the same

Baby, keep smilin, smilin for me
Everybody come on now
Baby, keep smilin, keep on smilin
