Never Again

Rev Theory

There's no escape from my pain
You get no peace of mind
You only twist the knife
And waiting for hell to freeze over
You're like a gun to my head
I put the fire in hot
Itching to pull the trigger
Over the edge [x3]
Never again
You waste my time
Never again
Invade my life
Never again
You're no friend of mine
All you do is take my will away
I feel alone in my veins
I'm on the road to dying
Don't wanna stop to fight it
Counting the lives 'til it's over
I met my dark companion
I'm fuckin' flyin' high
And now the sun is rising
I'm down in a hole [x3]
Never again
You waste my time
Never again
Invade my life
Never again
You're no friend of mine

All you do is take my will away
Never again [x5]
Never again
You waste my time
Never again
Invade my life
Never again
You're no friend of mine
All you do is take my will away [x3]

Please help me
I'm fallin'
I'm gone too far done
Please help me
I'm fallin' down
So far down
Please help me
I'm fallin'
I've gone too far done
Please help me
I'm fallin'
I've gone too far down
Please help me
I'm fallin'
I've gone too far down
Please help me
I'm fallin' down
So far down
Please help me
I'm fallin'
I've gone too far down
