## Band Of Horses

Listen to the motor getting louder as we go  
One way or another, gonna make it back home  
Mountains to the water chewing up the scenery  
Fog, it only hovers, or the blinding sun beams  
This is what he does traveling the open road  
Get her on the double, make it right away  
This is what he loves  
Traveling the open road  
Now she's talking dirty  
I get there in a hurry and see  
You don't have worry, a secret little birdie told me  
Keeping things in motion, baby keep on running for me

Only static on the radio, pick up speed  
Hear me out mama, I don't mean for you to weep  
Get back to you tomorrow, now don't you lose sleep  
This is what he does traveling the open road  
Hey it's nine thirty  
My vision's getting blurry and weak  
I'd get there in a hurry but the police are following me  
Keep it in perspective, maybe come visit and free me  
K-9 unit on the interstate, Nashville, Tennessee  
Keep things in motion baby, keep on running for me  
Only static on the radio I'm picking up speed
