

# Jayne

## Stereophonics

She took herself out in the car  
She drove herself around the block  
She said she's leaving me again  
Then she got lost I look for her out on the porch  
I wanna see her face once more  
She said she's leaving me again  
Then she got lost  
Then she got lost She took the midnight train to nowhere  
She said that she was leaving home  
Yeah she's leaving me tomorrow  
But tomorrow never came  
For Jayne I wait for her now and then  
I hope to see her round the bend  
She said she's leaving me again  
Then she got lost  
Then she got lost She took the midnight train to nowhere  
She said that she was leaving home  
Yeah she's leaving me tomorrow  
But tomorrow never came  
For Jayne Never came for Jayne  
For Jayne  
For Jayne...
