

There Is Life

[Alison Krauss](#)

Under the snow, beneath the frozen streams

There is life

You'll have to know when nature sleeps she dreams

There is life And the colder the winter, the warmer the spring

The deeper the sorrow, the more our hearts sing

Even when you can't see it inside everything

There is life After the rain the sun will reappear

There is life

After the pain the joy will still be here

There is life For it's out of the darkness that we learn to see

And out of the silence that songs come to be

And all that we dream of awaits patiently

There is life, there is life
