Summer

Machine Gun Fellatio

I got a friend in Jesus, he's got a friend in me
He's a bit hung up on god, but we've agreed to disagree
Sometimes when I'm feeling frisky, call you up at home
One time when your boyfriend answered I pretended I was selling mobilesI'm lovin' this summer scene
I'm diggin' this summer sound
I'd have everything I need
If you could come on around
I'm diggin' this summer scene
I'm lovin' this summer sound
And I would show you what I mean
If you were here with me nowI could be taller, tighter, tanned more than I am
It would take a lot more cash for me to be your money man
But sunshine doesn't justify itself to the moon
I've seen the stars and baby, they're whistlin' my tunesI'm lovin' this summer scene
I'm diggin' this summer sound
I have everything I need
If you were comin' around
I'm diggin' this summer scene
I'm in love with your summer sound
I'll take you places you've never been
This is my town, oh baby
You're all I need to see me right
I said you're all I need to see me rightWell I'm lovin' your summer scene
And I'm diggin' this summer sound
And I got everything I need
'Cause you're comin' around
Well I'm diggin' this summer scene
I'm in love with your summer sound
I can promise you'll never leave
When you see what I've found
You and me
You're all I need to see me right
'Cause I'm lovin' your summer scene
I'm diggin' this summer sound
You're all I need to see me right
I got everything I need
Now you're coming around
You're all I need to see me right
I'm diggin' this summer scene

I'm in love with my summer sound
You're all I need to see me right
I'll take you where you've never been
Honey, this is my town
