I Get the Message

Ivy

Well, my brother says I can't live in the past
But when you're more depressed by what's ahead
You start believing in old dreams very fast
There were some awful times
And then there were some more
But now remembering the worst of it
It doesn't seem to be so bad anymoreWell, I don't know what to do
Whether I leave or stay with you
I get the message either way
I get the message either wayWell, Christian says that I don't want you now
But what he doesn't seem to ever grasp
Is that I never cared about you anyhow
It was a dirty way to leave me by the road
And when I finally found my way to town
You stood there with a smile so everyone would knowWell, I don't know what to do
Whether I leave or stay with you
I get the message either way
I get the message either way
