

Our Winter Love (1991 Remaster)

The Lettermen

Love born in winter time warms
This heart of mine with dancing fire
Of sweet desire
We've found our winter love Eyes cold as fallen tears grow
Be chilling fears of loneliness
How could I guess?
We've found our winter love Now armed, the world is warm, warm
Through cold and storm, we've found a fire
Of sweet desire
We've found our winter love We've found our winter love
We've found our winter love
We've found our winter love
We've found our winter love
