

# Samsara 2015

## Martin Tungevaag

Times running up tick tock and  
I'm set on minutely a thread of life  
Do you believe in karma?  
Let's live it up like samsara Someone might tell you life is deadly  
but with us it's just one of many  
Come one let us set the tone  
Follow the rave let's get it on Take me home to samara samsara  
Lose control like samsara samsara  
Come join us we'll make it  
Come join us we'll take it  
Take me home to samsara samsara Oh, come to samsara samsara  
Oh, come to samsara samsara  
Samsara Don't waste your time, tick tock  
Spend eternity on this wheels of life  
Take a trip to nirvana  
Let's live it up like samsara Someone might tell you life is deadly  
but with us it's one of many  
Come one let us set the tone  
Follow the rave let's get it on Take me home to samsara samsara  
Lose control like samsara samsara  
Come join us we'll make it  
Come join us we'll take it  
Take me home to samsara samsara  
Samsara
