

# Strong Heart

## D'Sound

Strong heart, don't fail me now  
I know it's time to go but for now I linger on  
Big tear, you fall so soft  
I know in time you drown but for now you linger onHow could I be such a fool  
I'm walking straight into pain  
Was it the song I heard on the radio  
All the romance in the air  
Was it the longing so I just don't know  
But I'm gonna end it hereStrong heart, don't fail me now  
I know it's time to go but for now I linger on  
Big tear, you fall so soft  
I know in time you drown but for now you linger on  
I wanna linger onI figured out what I'm gonna say  
And I rehearse it for days  
Was it the way you turn to look at me  
All the things you said in the phone  
Was it your voice your smile I just don't know  
Wanna make it on my own
