

# Is This Love?

James Arthur

I must've walked these streets about a million times  
I thought I knew them well but maybe I was blind  
'Cause everything's brand new  
Thought I knew my heartbeat but it was out of time  
It's like my lungs are opening for the first time  
Ever since I met you And I'm on my way now Is this love, really love?  
Is this love, really love? I swear that I was heading down a darker road  
You got through my guard when I was in safety mode  
Darling you're such a view You're pulling down my walls like you're my only sun  
You're the one to blame, you hold a smoking gun  
So take your aim and shoot And I'm on my way now Is this love? Really love?  
Is this love? Really love?  
I need to know, need to know  
'Cause I've never been this close  
Is this love, is this love?  
Really love, really love? And all these demons I'm letting go  
'Cause I can see what is beautiful  
It finally feels like I'm coming home Is this love? Really love?  
Is this love? Really love?  
I need to know, need to know  
'Cause I've never been this close  
Is this love, is this love?  
Really love, really love? And all these demons I'm letting go  
'Cause I can see what is beautiful  
It finally feels like I'm coming home
