Fall

Timeflies

What you looking for, feeling like you'll never find
You spend the money but it never sees how you spend the time
Are you even sure, could you even make up your mind
Look here for all the answers you should probably get in lineBut not so fast
Just slow down (just slow down)
Maybe you should look around
Just get lost turn up the sound (turn up the sound)'Cause we get so high that we just fall, fall
Don't need sleep tonight to dream this song
Soak 'em up (soak 'em up)
Kiss you now (kiss me now)
What you are (what you are)
Here we go (here we go)
'Cause we get so high that we just fall, fallCome and find me now, cause I'm where you wanna be
Don't need no clock to know it's time for you to come rock with me
Open up your eyes, no telling what you'll see
How it's time for you to stop, just breatheTold you not so fast
Just slow down
Maybe you should look around
Just get lost turn up the sound (turn up the sound)'Cause we get so high that we just fall, fall
Don't need sleep tonight to dream this song
Soak 'em up (soak 'em up)
Kiss you now (kiss me now)
What you are (what you are)
Here we go (here we go)
'Cause we get so high that we just fall, fallOn the way up we going to all fall
On the elevator don't you calls for
You got to bounce back, you got to brush it off
If you stay down then it's ya'll fault
I'mma ball hard till my balls fall
When god says my years are done
I know the top is where I'm going
Even though the bottom is where I'm from
I get so high, cheap seats
Pillows at OG we fall in deep sleep
That double R like roadrunner
All you hear is beep beep
I fall through like wintertime and you fall alone'Cause we get so high that we just fall, fall
Don't need sleep tonight to dream this song
Soak 'em up (soak 'em up)

Kiss you now (kiss me now)
What you are (what you are)
Here we go (here we go)
'Cause we get so high that we just fall, fallBut not so fast
Just slow down
